NOTE FOR: DCI

FROM: EA/ExDir

John wanted you to have the attached paper before you go to today's NSC. This identifies four countries in the Caribbean--Jamaica, The Dominican Republic, Dominica and St. Lucia--that would benefit most from additional U.S. assistance.

You should also have received a 15 April paper on "Prospects for Stability in the Caribbean Basin through 1984," which assesses the security situation there and likely threats to regional stability.

By 4 June you should receive a broader paper focusing on the status of about 30 strategic Third World countries and their implications for U.S. policy.
